SPECIAL MESSAGE.—The following special message of the President on the public finances of the country was submitted to Congress on the 18th of January last

I have signed the joint resolution to provide for the immediate payment of the army and navy of the United States, passed by the House on the 14th, and the Senate on the 15th. The joint resolution is a simple authority, amounting however, under the existing circumstances to a direction to the Secretary of the Treasury to make an additional issue of $100 000 000 United States notes—if so much money is needed for the payment of the army and navy. My approval is given in order that every proper facility may be afforded for the prompt discharge of all arrears of pay due our soldiers and sailors. While giving this approval, however, I think it my duty to express my sincere regret that it has been found necessary to authorize so large an additional issue of United States notes, when this circulation and that of the suspended banks, together, have become already so redundant as to increase prices beyond real value thereby augmenting the cost of living, to the cost of labor, and the cost of supplies, to the injury of the whole country. It seems very plain that the continued issue of United States notes, without any check to the issue of suspended banks, and without adequate provision for the raising of money by loans and for funding the issues, so as to keep them within due limits, must soon produce disastrous consequences. And this matter appears to me so important that I feel bound to avail myself of the occasion to ask the special attention of Congress to it

That Congress has the power to regulate the currency of the country can hardly admit of doubt, and that a judicious measure to prevent the deterioration of this currency by a reasonable taxation of bank circulation, or otherwise, is needed, seems equally clear. Independently of this general consideration, it would be unjust to the people at large to exempt banks enjoying the special privilege of circulation from their just proportion of the public burdens. In order to raise money by way of loans, most easily and cheaply, it is clearly necessary to give every possible support to the public credit to that end, and uniform currency in which taxes, subscriptions to loans, and all other public debts may be paid, is almost, if not quite, indispensable.

Such a currency can be furnished by banking associations, authorized under a general act of Congress, as suggested in my message at the beginning of the present session. The security of this circulation by the pledge of United States bonds, as herein suggested, would still further facilitate loans by increasing the present and causing a future demand for such bonds. In view of the actual financial embarrassments of the Government, and of the greater embarrassments sure to come, if the necessary means of relief are not afforded, I feel that I should not perform my duty by a simple announcement of my approval of the joint resolutions which propose relief only by increasing the circulation, without expressing my earnest desire that measures, such in substance as those I have just referred to, may receive the early sanction of Congress. By such measures, in my opinion, will payment be most certainly secured, not only to the army and navy but to all honest creditors of the government, and satisfactory provision made for future demands on the treasury

A LINCOLN.

A bright eyed widow of thirty who resides in Marysville cowhided the other day a fellow whose addresses she had rejected because he persisted in persecuting her by his presence or for other cause but after the whipping and a chase—love chase perhaps—of several blocks he came to terms, and she not only accepted his apology but himself with it. This may be termed a positive case of whipping a man into the traces

NEW YORK, Feb 13 —The *Shipping Gazette*, received by the *Ætna* says: Should the Emperor's proposal be rejected, he has apparently but one alternative, to recognize the South and raise the blockade It may be taken for granted that the offered negotiations will be rejected and that compulsory cessation or maritime war with the North will follow The *Gazette* asks can England afford to let the French Emperor proceed alone or is he acting in understanding with Her Majesty's Government?

NEW YORK Feb 14 —A special Washington dispatch says that the Paper Manufacturer's Committee had presented arguments to the Committee on Ways and Means against the repeal of the tax on paper, alleging that they represent a capital of twenty millions of dollars The Committee of Publishers also had a meeting with the Ways and Means Committee and presented their reasons why the duty should be reduced

The English Admiral, acting under orders from the Minister, subsequently seized several Brazilian vessels in Rio Janeiro The Brazilian Government refused to treat with the English Minister until the vessels were released, and the matter was settled by referring the case of the ship to the Brazilian Minister at London and the English Government. A late extensive exchange of prisoners between our Government and the Confederates has released about 1,000 Union soldiers from inactivity to active service again Among others exchanged are all officers captured at sea prior to Dec 10 1862 By this clause in the agreement Capt Sartori and the other navy officers on board the *Ariel* on their way to the Pacific and the marines *en route* to Mare Island are included in the exchange and may now proceed to serve their country They will doubtless rejoice to hear this announcement. It would be a rich joke if Capt Sartori and his associates should be again captured on their way to the Pacific on the Aspinwall steamer by the *Alabama* The probability is however that before this the *Alabama* is far distant from the track of the Aspinwall steamers

Some two hundred Union officers prisoners at Richmond are closely confined and will continue to be until the President's proclamation is withdrawn and Gen Butler given up for punishment Of course this will necessitate the close imprisonment of an equal number of rebel officers

Legal Tender Notes this Day---65 cents.

BUTCHERS' ASSOCIATION.—The beef eaters of this region are beginning to feel, if not taste, the consequences of the recent combination entered into by the several meat dealers of this city, by which the price of beef has suddenly, and without apparent cause, advanced to double its former price. Why such an advance in price has occurred does not appear clear to the public mind, nor from the frequent grumblings heard in various quarters does it appear to set well on the public stomach. The only conclusion we can arrive at is, that the surloin and porter house steaks have all suddenly disappeared and gone up into the necks and shoulders of the carcasses now brought into market, which produces an extraordinary toughness requiring much time and considerable skill to successfully masticate, hence the butchers have rationally concluded that the consumers of beef ought to pay a higher price for the article, because the enjoyment of rolling and tumbling the delicious morsels beneath their pallets is materially prolonged. Truly, there is a cause for everything.

U. S. REVENUE STAMPS.—Mr S J McCormick, of the Franklin Book Store, Front street, showed us yesterday several specimens of the U. S. Revenue Stamps, required by the Excise law to be attached to all public instruments and documents to insure their legal force in courts of justice. Mr McCormick informs us that he has a large supply of these stamps on hand, where all who have need of them can be supplied with any variety, size, shape or value.

WATCH OUT.—We would advise our friends, when they go or send to market now-a-days, for beef, to watch where the pieces come from, else the butchers might occasionally slice off a chunk from their "bloody boots," at 20 cents a pound.

DROWNED.—We learn from Mr Parker of Astoria, that Captain Wells, of Shoalwater Bay, and a stranger from Albany, Oregon, a potter by trade, name unknown, were both [illegible] drowned while endeavoring to cross from Oysterville to Cape Shoalwater, on the 20th inst.

[illegible].—Our excellent friend S J Mc[illegible] will please accept our thanks for files of late California and Atlantic papers and periodicals.

PERSONAL.—We are compelled to ask the indulgence of our readers in matters of local news, etc., in consequence of sickness, rendering us unable to attend to local matters.

STORAGE.—THE FIRE-PROOF STONE WAREHOUSE, opposite Umatilla House, is the only building "not made of wood," at the Dalles, where goods are taken on STORAGE. All other [illegible] that take goods on storage are wooden buildings [illegible] parts of the town, liable to the risk of fire. The subscriber [illegible] his patrons that his charges are but $1.50 per ton per month storage and although [illegible] in wooden buildings is $1.00 per ton, yet the public [illegible] fail to [illegible] the advantages the subscriber possesses over other warehouses of this place.

For Coughs.—The sudden changes of our climate are [illegible], BRONCHIAL and ASTHMATIC AFFECTIONS. [illegible] having proved that simple remedies often act speedily and certainly when taken in the early stage of the disease, recourse should at once be had to "[illegible] Troches," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually [illegible] off. White's Fever and Ague Drops. For the cure of AGUE, PANAMA FEVER, NEURALGIA and GENERAL DEBILITY.

This Medicine has been used in private practice for many years with great success. Indeed, in no instance has it failed to effect a speedy cure, in Ague especially, one bottle having been found sufficient in most cases and in none are more than two bottles required.

A great number of testimonials could be given to verify these statements, but the proprietor prefers relying upon the [illegible] of the medicine alone. A cure is guaranteed in nine cases out of ten.

To the Ladies of California.

Dr Van Zandt [illegible] with complaints of women [illegible] practice is owing to his correct views of [illegible] their maladies. Ladies can consult him with entire [illegible] he is [illegible] ills. [illegible] the only member of the legitimate profession in California who is really successful in removing those ills which are the peculiar province of the sex. His high appreciation of the delicately attuned nervous organism together with the great sympathetic life renders [illegible] message those silent complainings which they bear so patiently and so long. No social [illegible] no longer afflict our home circles for he can awaken the stricken energies, restore the wonted tonicity of the body, awaken the melancholic and despondings, arrest those drains which cause so much anxiety, cure those protean maladies which have so long

Baffled the Skill of Physicians.

Devel ping the life and animation dispel nervous headache sinking at the stomach, wandering pains wasting away of energies, extreme debility and lifelessness, hectic cough sleeplessness unpleasant dreams and that general depression of [illegible] powers, which go to render her life a misery, and lead [illegible] a boon. Dr Van Zandt with his new method of exciting the Electro-Galvanic current together with his remedial measures which are adapted to the necessities of California will insure you of a complete and radical recovery of all bodily and mental infirmities and will restore you to usefulness and spare you a blessing to your family and society.

All the world over

wherever disease exists, with their special to the soil and climate or condition to all relations—epidemic or casual acute or chronic, contagious or non-contagious—it is as necessary to restore the ELECTRO-GALVANIC equilibrium, especially in California, as it is to give food to the starving. This statement is based upon a series of facts extending through many years, and verified by hundreds of patients so that no principle of science, no rule of experience, no result of any well known [illegible] more sure and unassailable foundations than those which underlie the world wide reputation of Electricity for the cure of all nervous states of the body, faulty digestion, mental and physical debility or prostration, nights [illegible] wandering pains of a rheumatic gouty or mercurial character, and all forms of disease the result of scrofula or cachectic habit of body.

None Need Despair of Relief.

If you have ulcers which will not heal—pains that cannot be removed—melancholy which you cannot shake off—loss of power which you cannot regain—depression of spirits which weighs you down—wakefulness that knows no sleeping—business that languishes for want of energy—a void which no society can fill—suspicion which no assurance can allay—Go to Dr Van Zandt for his great success and the safety with which he administers his new method of electrical excitation together with his remedies which are adapted to the requirements of climate and constitution will assure you of a complete and radical removal of all bodily and mental infirmities within the scope of science and man to remove.

The Eye and Ear Diseases.

It must not be forgotten by the eye and ear sufferers that Dr Van Zandt has made these affections an especial study and that he is the only Surgeon in our State who has a diploma for that branch of practice. Very many of the eye and ear troubles are purely deranged nervous action, and are cured by the electro-galvanic battery—as amaurosis, squinting, cataract, floating specks before the vision, twitching of the eyelids, nervous deafness, roaring and buzzing noises in the ears, giddiness, etc. All operations successfully done on those delicate organs of sense.

Massacre of Germans in Texas.—The following article is a translation from the Galveston *Union*, a German paper established since the occupation of that place by the Union forces It will prove an incentive to still higher deeds of loyalty and heroism by the Germans now doing service in the ranks of the Union army and may be read with profit by those rebel sympathizers who are opposed to the Government bringing the whole South to allegiance

Near the origin of the Gaud Cupe and Pied rnales, on Johnston s creek, several American and two German families settled but two years ago Contending against the roughness of the soil and the wild Indians they had no pleasant position, but they persevered conscious of their courage and their intrepidity and the lower settlements owed it to them that they had less to suffer from the raids of the Indians The border inhabitants received but little news about the condition of the country and the events of the war All at once they were notified to pay war taxes and to drill The first demand they could not comply with, because they had no money not even cornmeal enough for their families, and the last order they could not obey because they lived so distant from each other, and their absence would leave their families without protection

For these reasons they were considered Union men, and Captain Duff, a notorious rowdy, was sent against the settlers with a company of Texans They asked the protection of their friends, but had to fly from the overpowering numbers of their enemies to the mountains Many Germans and Americans were arrested and imprisoned at Fredericksburg, and Capt Duff was reinforced by four hundred men, to operate successfully against the German Abolitionists and hunt up the Yankees. The soldiers again visited Johnston's creek, but found the most of the settlers had fled to the mountains Frederick Degener they alone surprised sleeping under the porch of his house, but awakened by the cries of distress of his wife and the discharge of muskets of his enemies, who fired fourteen shots after him, he fortunately made his escape.

His house was ransacked and all movable property taken off Other farms in the neighborhood were also searched, the farmers taken prisoners and the houses burnt down Upon the news of these events, Frederick Degener and other fugitives concluded to fly to Mexico, more exiles joined them and soon they had a company of sixty eight men But they traveled too slow, and before daybreak one morning they were surprised by two hundred Texans. After a most determined resistance they were defeated, and only twelve of them covered with wounds, made good their escape

All fugitives which afterward fell into the hands of the enemy were hung up Among these sixty-eight men only five were Americans, the others all Germans A few of the fugitives escaped across the Rio Grande, others, wandering in the mountains and suffering extreme hunger, sought protection among American families, but were handed over to their persecutors and shot or hung

To this news, Dr. Adolph Douai, a celebrated German traveler, who for many years had lived in that country, makes the following notes

"We know personally most of these unfortunate victims, which have been murdered so mercilessly—not because they rebelled against the Government, but because they would not act against the Union, and would rather fly to Mexico These murdered Union men were some of the greatest benefactors of the State; they had done the hardest pioneer in it, cleared it from the wild beasts and Indians; they had saved it to civilization through more than one period of pestilence and famine, secured the borderers their present persecutors the slaveholders, against the invasions of Indians, and done the best service as volunteers in the Mexican war and the wars on the frontier. They placed the arts and sciences in Texas as well as they could be found any where among the American Germans They furnished the proof that they could cultivate sugar and cotton without the least danger to health, and increased the riches of the country millions of dollars"

The above related events are their reward for it. Hundreds who succeeded in making their escape roved about in the woods, having lost everything, some even their families Hundreds are now chased like wild beasts through the wilderness of northwestern Texas and succumb because of the most horrid tortures, their fate never being known to their fellow men.

Born to be our Masters.—The Sacramento *Union*, in commenting upon the recent speech at Mobile Ala, of his Satanic Majesty, King Jefferson Davis, to the impious fiends who revel in their treasonable orgies over the rebellious portion of the once free and happy people of the South, holds the following language

The way in which Jeff. Davis cracks his whip over the peace flunkeys of the North in his recent speech at Mobile is refreshing to contemplate Considering that, only a few weeks previous, the Confederate Chief had extended an invitation to the North-western "Democrats" to assist the rebellion, his contemptuous manner of asserting that "Yankees had assumed to exercise dominion over men who were born to be their masters" leads to the inference that he has not yet given up the idea of overseeing plantations well stocked with the "Democrats" aforesaid The same preposterous notion breaks out all over the surface of the rebellion. If there be any persons in the loyal States who are willing to recognize the bloodthirsty criminals of the Southern Confederacy as masters they can be found nowhere outside of the "Democratic" organization But the arrogant assertion of Davis, if reported at the North, will drive every real Democrat who has a spark of an American spirit in his nature into an earnest support of the Government in its efforts to whip these born masters into subordination or silence

San Francisco Fire Department.—A bill was introduced in the Board of Supervisors of San Francisco, on the 16th inst, amendatory of the Consolidation Act, which provides for a radical change in the government and management of the Fire Department of San Francisco, and inaugurating a system now in vogue in some of the Atlantic cities According to its provisions the entire Department is placed under the control of a Chief Engineer, with a salary of $1 800 per year instead of $4 000 as at present and three Assistants, with salaries each of $1,200 per annum These are to be elected by the Board of Supervisors no two of the Engineers to reside in any one Fire District It authorizes the purchase and use of Steam Fire Machines only It reduces the force of the Department to about one hundred and fifty men—seven engines being considered sufficient for the present The machines are to be drawn by horses, with companies of eighteen men each No two engines are to be located in the same District There shall be one Hook and Ladder Company such number of Hose Companies as the Board of Supervisors shall direct

Proclamation by the Governor

Executive Office Portland Oregon }
January 6 1863 }

By the President of the United States through Brigadier General George Wright commanding the Department of the Pacific and Brigadier General Benjamin Alvord commanding the District of Oregon I have been requested to raise six additional companies required to complete the 1st Regiment of Cavalry Oregon Volunteers They will be needed the coming Spring on the frontiers of this State and Washington Territory and for an expedition against the Snake Indians who have so long been mercilessly engaged in robbing emigrants and murdering our fellow-citizens I cannot doubt that the citizens of Oregon, who have always promptly responded to any demand for their military services, will in like manner respond to this call, thereby showing their loyalty to the Government and aiding in chastising marauding bands of Indians which infest our frontiers

The enlisted men, when mounted will be supplied with horses by the United States, it being understood that they will be mounted or not, as shall be deemed advisable by the Government

Propositions to raise a whole company, which will furnish their own horses and horse equipments, may be entertained The men are in such cases entitled to forty cents a day for the use and risk of their horses and horse equipments

Each company will consist of one hundred enlisted men, and when mustered into the service of the United States to serve for three years, unless sooner discharged

Recruiting offices will be immediately opened at Portland, Dalles City, and perhaps at other places By the Governor,

ADDISON C GIBBS

Cyrus A Reed Adjutant General
